PROJECTS

Sorting Visualizer

[Sorting Visualizer Link](#)

- Developed a Sorting Visualizer using HTML, CSS, and JavaScript to simplify sorting algorithm understanding.
- Created an interactive platform to observe step-by-step sorting processes in real-time.
- Promoted intuitive learning of sorting algorithms through visual representations.

MyLibrary

- Efficiently manages authors and books using Node.js, Express.js, and MongoDB.
- Intuitive user interface with HTML and CSS for seamless navigation and interaction.
- Facilitates unrestricted author addition and offers editing capabilities for both books and authors.

Placement Preparation Tracker Website : (Work in progress)

- Live "Placement Preparation Tracker" website with personalized learning paths for DSA, Web Development, and Core subjects.
- Developed using HTML, CSS, Bootstrap, Node.js, and MongoDB, ensuring an interactive user experience.
- Valuable resource for placement preparation, offering clear paths to enhance efficiency.
